

Unsurpassed Medical Care

- Doctors with ER Experience
- Convenient On-site X-rays and Labs
- Newborns to Seniors and Everyone in Between
- Services for Routine to Urgent Medical Needs

Unsurpassed Medical Care. Thoughtfully Delivered.

What Immediate Medical Care Should Be

When you're sick or hurt, you want a doctor's help. But in a hospital emergency room, discomfort, chaos and a long wait can make your situation worse, let alone expensive. And for routine care, getting a doctor's appointment can take weeks.

STAT MED Urgent Care provides immediate access to a team of doctors who have practiced in hospital emergency rooms and in local primary care practices. That means they can handle everything from more severe injuries and illnesses to routine medical exams.

With up-to-date facilities, private rooms, and unrushed attention from genuinely caring professionals, STAT MED Urgent Care helps make you feel better from the moment you walk in the door. And if you need an EKG, lab or x-ray, there's no need to go to another floor or health provider. Comprehensive services are on-site to expedite your care.

Comprehensive Services for Whatever Is Urgent to You.

Providing a full spectrum of immediate care for infants to seniors, and everyone in between

Urgent

Diagnostics

X-Ray and Lab Services

Routine

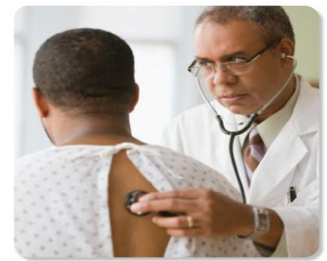

Medical Care

Work Injury

Occupational Medicine

All services are coordinated within each STAT MED clinic, so that your doctor seamlessly can answer your questions, interpret test results, and provide the expert treatment you require.

A summary of our comprehensive services follows.

STAT MED is a preferred provider for most major insurance companies.

STAT MED Urgent Care is contracted with all major commercial insurance companies and Medicare, including most of the Plans provided by the carriers listed below. Most insurance companies have a multitude of Plans with varying levels of coverage, so we encourage patients to contact their provider to find out their specific coverage details.

While our reimbursement specialist will work with you, it is the patient's responsibility to verify and understand their medical benefits, knowing that they are responsible for all charges not reimbursed by their insurance provider

including co-pays, deductibles and any ancillary charges.

Join the STAT MED Urgent Care Team

STAT MED Urgent Care team members are passionate about delivering high-quality, timely and patient-centered care. This passion unites all of our team members from our physicians to our office staff.

As a rapidly growing company, we are always looking for individuals who share our unwavering commitment to patient care delivered in a compassionate manner.

Fast Access to More Advanced Urgent Medical Care

It can be confusing where to seek medical care, whether you need a flu shot, treatment for an infection, or stitches.

Data shows 70% of Emergency Room (“ER”) visits are not life-threatening and can be treated in an urgent care setting like STAT MED with appropriately trained physicians.

Because STAT MED has physicians on-site with emergency medicine expertise having worked in local ERs, STAT MED is able to diagnose and treat a wider range of medical issues.

The following graphic clarifies how STAT MED can help you with basic levels of care to more advanced medical situations.
